Very professional and got to the cause of my pain

Friendly staff, efficient service. Thank you

The nurse who I saw was lovely, caring and very kind. I was running 5 minutes late but she still saw me and was very understanding. She made me feel at ease.

I then saw Dr Saunders and hour later who again was caring and and very friendly

I was seen very quickly almost as soon as I arrived before the appointment time.

Very well organised in a professional manner with doctors and staff who treat you with care and respect. Quick and easy to use

Always get very good service from your practice.

a measure at this stage

a measure, at this stage.

Very informative and helpful.

Friendly nurse. Explained everything well.

The rest of the experience involved no contact with anyone.

Surgery clean and spacious. Only 4 people waiting

Waited 10 minutes after appointment time

The appointment/phonecall was freindly and efficient, but was 30 minutes late from the time I should have received the call.

This review was has expected.

Long wait to check in then appointment was over 10 mins behind. Once in with the nurse, she was so lovely - very empathic, kind and efficient. I was nervous but she reassured me and it was all over quite quickly.

The GP was running late and I do feel I was seen very "hurriedly" (unusually). They did, however, answers all my concerns but no thorough exam or bp readings taken despite fall previous night.

I was able to get a same-day appointment which was on time and the Dr was pleasant enough. The reason I didn't give a higher score is because I had some questions after the Dr had seen me but I felt like he was quite dismissive.

Perplexed that the NHS app report of this consultation says ?I get little exercise? and am ?moderately inactive?. I have a Fitbit which shows I have walked an average of 7.3 miles a day in 2024 (7.4 in 23, 7.2 in 22, 7.7 in 21 etc). Disheartening!

It was a doc I'd never seen before. Helpful kind understood my fears explained. Answer other question and put me at ease

I received a phone call from my GP practice at the beginning of the week saying the pharmacy wanted a call with regards to new medication. On the call the pharmacy had no idea why they were calling me and asked what I needed poor performance

Appointment with the midwife was great. Down rated due to having to attend clinic in swad as pre-natal not considered important enough to hold in Willington. No idea how people with no car manage.

I did not see the benefit of having a prescription review with a pharmacist, whose only advice was to contact the prescriber of the medication. The review was just duplicating the work undertaken by the practice nurse during my well man review.

Still not being examined despite stating back pain is further up my spine from the lumbar region which was MRId. Thankfully I'm getting referred on to MSK, but considering I've been saying the same thing for nearly a year, it's poor

Link won't open and felt I wasn't listened to. I advised that I used to be a PT and used to do a lot of hospital referrals and tried to explain what exercises I have done with my knee but wasn't listen to and sent what I suspect I a stock programme

Wendy was very good and sympathetic taking my clips out.

The pharmacist contacted me by telephone and he gave very helpful advice going forward. He answered all my questions

Always thorough and professional?..

Straight in and out

Everything went very smoothly and very helpful

Prompt appointment, good doctor and outcome.

The nurse I see is pleasant thoughtful and timekeeping is very good

Never have issue as everybody has been pleasant and professional

I felt validated by the GP and I felt my issues were heard

Always excellent

Friendly and helpful staff. However, felt I was being rushed through a process. Information delivered too quickly to absorb

Thoroughly checked me out. Hopefully outcome is good
