The scheduled call was on time. Dr Saunders was very helpful and thorough, as always is.

Julie the nurse who phoned, very good. However, when the recep called to make my appt she said it was to discuss bloods. These were discussed at a previous GP appt. I was then told by her that it was to do with my cond & nurse specialist. Misleading

Dr makava is amazing! Mental health is often overlooked, she made various phone calls on my behalf, followed up multiple times with me, spent way over the usual time to make me feel heard. Took everything I said serious and made me feel so supported

Never had a phone call come through again

The doctor, was very thorough when explaining the reasons for my symptoms and the medication recommended.

I was there for a health check. No feedback was given on my BMI, blood pressure results or answers to questions. I am no wiser as to how healthy I am than I was before.

Efficient and polite

Dr Jackson kindly phoned and left a detailed message for me regarding recent x-ray. Many thanks indeed.

As ever, the surgery has given fantastic support and treatment. From reception to doctor your professional care has been wonderful and I am truly grateful for all you do for me. Hopefully I'll be on the mend soon. Thank you all.

Appointment was spot on time, doctor very helpful
